

AZCO INC. offers industrial construction, fabrication, precision machining and certified welding services. Our company prides itself on delivering high quality fabrication, flexible machining and welding services to ensure customer satisfaction.

With our new Machining Center, we provide precision machining that customizes parts and assemblies to comply with our customer's specifications.

Kao-Ming 6 Meter 3-Axis Double Column Bridge Machine
Model No. GMB-6000SV-H

Distance between two columns – 4.9'

Travel X: 19.5' Y: 4.429'

Z: 2.5' (V) / 2.296' (H)

Table size: 4.1' x 19.6'

Spindle rpm: 4400rpm

30ATC BT#50 Spindle (Optional CAT #50)

90 degree fixed manual angle head

Auto tool length measurement system

Auto part touch probe system, Renishaw RMP60

AZCO INC. has 120,000 square feet of shop space dedicated to carbon steel, stainless steel, chrome-moly and exotic alloy pipe and metal fabrication.

Equipment:

- Automated Thermal Arc Plasma Keyhole Welding System
- ARC Machines, Inc. Orbital Welding Machines
- Orbital Plasma Cutter
- George Fisher Orbital Pipe Cutters
- Vicon Model 8000 Plasma Burning Table
- Miller Welding Machines
- HEM Saw
- T-Drill Port Extrusion Equipment
- Horizontal / Vertical Milling Machine
- Vernon MPM- 2 Automated Pipe Cutting Machine
- Cooperheat and Miller Induction Heating Equipment
- Vernon MPM- 4 Automated Pipe Cutting Machine

Materials Fabricated:

- Stainless Steel - all grades and types, Schedule 5 – Schedule 80, E.R.W. and Seamless
- Special Alloys - Hastelloy, Monel, Inconel, Duplex 2205, A254SMO, AL6XN, Titanium, Aluminum
- Carbon Steel - all grades and types of E.R.W. and Seamless materials, Standard weight through double extra strong
- Chrome - P5, P9, P11, P22, 91, and P92 materials, Standard weight through minimum wall requirements
